

Programming

ERIN KEITH

Goals

1. In Class Activity
2. In Class Discussion

In Class Activity

Work in pairs on the Functions Activity in WebCampus.

Be prepared to discuss as a class

Why or how these could be useful.

- Why not just have the function in your application?

Possible opportunities to apply them this semester.

- Consider in class examples, homework assignments, and your final project.

Next Class

Module:

Week 14: Databases in Software Systems

Topic:

Indexes

Query Optimization
